

8-23-10

Dear Families,

Here we go! Your children are excited to be here and so are we.

Thank you to Brock and Wilson for providing snacks this week.

I neglected to put the right extension number for my class in the last letter. It's 1414; sorry about that.

Please return all your open house forms asap. I have an extra set, so if yours got left behind last Tuesday, let me know and I'll send them your way.

Attached to this letter you will find the sight words from kindergarten, use them as you wish.

We will be busy this week with reviewing letters m,a,s,i,r,o,t,e,n and u. We will also review these words: a, I, my, the, look, come, here, that, have.

We will be looking at number order and starting some simple addition.

We will start a science unit on living and non-living things, and so some exploration with our senses.

It will be a miracle if we get all this done!
